VSD Will Open the RV Dump Station on Jun 15, 2021

Indio, CA — In response to the COVID-19 pandemic and the Riverside County Health Officer's order, the VSD RV dump station was closed. Now that Governor Newsom has announced that the State will likely reopen by June 15, the District will reopen its lobby and the RV dump station effective that date.

“VSD is committed to providing safe and affordable services to its ratepayers. The RV dump station will remain a free service to anyone who lives within the VSD service area. There will be a nominal cost to those who live outside the service area.”

For more information about the RV dump station, please contact Jeanette Juarez, Business Services Manager, at jj Suarez@valley-sanitary.org or 760-238-5400.
